Summer Term - July 2018

Dear Parents and Carers,

The term has flown by and we are very fast approaching the end of term. The children have had a very busy term so far learning about our topic. We are currently exploring the sea creatures in the ocean and learning lots of interesting facts.

The children are enjoying the lovely weather and taking their explorations outside. Nursery have been developing their problem solving skills by making boats and watching to see whether they will sink or float.

If there is anything you would like to discuss then please remember our door is always open.

Interactive Learning Diary

Just a reminder that from the 30th August you will no longer have access to the observations on the ILD.

Please download all your child's observations before this time. If you need help to do so, then please bring in a memory stick asap.

The little explorers have loved learning this song about jellyfish.

Jelly fish, jelly fish, swimming in the sea,
Floating in the water up where I can see.
I have to be careful, don't come too near,
Your tentacles might sting, I'm out of here!

Reception children have learnt lots of interesting facts about different sea creatures.

Nursery Graduation

Just a reminder that Nursery will be graduating on
Wednesday 18th July at 2pm.

For children that normally attend on this day can they
please arrive at the office for 1.45pm.

HEAD LICE

There have recently been a couple of cases of head lice identified in school. While head lice are nothing more than a nuisance, it is important that children are checked on a weekly basis so that any head lice can be dealt with quickly before they can be allowed to spread. As there have been a couple of cases, we would ask you to check your child's head as soon as possible.

Please follow the simple routine to ensure that you are doing all you can to keep head lice outbreaks to a minimum.

CHECK

- Your child's hair once a week
- Use a head lice comb to trap the head lice
- If you find live lice, consult a pharmacist for treatment advice
- If head lice are spotted take a look at all the hair within the family

TREAT

- Please treat your child with a hair treatment
- Leave the treatment on for the recommended time for maximum effect
- Repeat the treatment for a second time seven days after the original treatment to kill any eggs that may hatch after the first treatment
- Check that all head lice have gone within two to three days of the final application to complete the process
- Continue to check for head lice on a regular weekly basis

For further information on head lice please see your pharmacist or visit www.nhs.uk/conditions/head-lice-and-nits

Dates for your diary

Tuesday 17th July

Reception 2nd Fluoride
Application

Wednesday 18th July 2pm

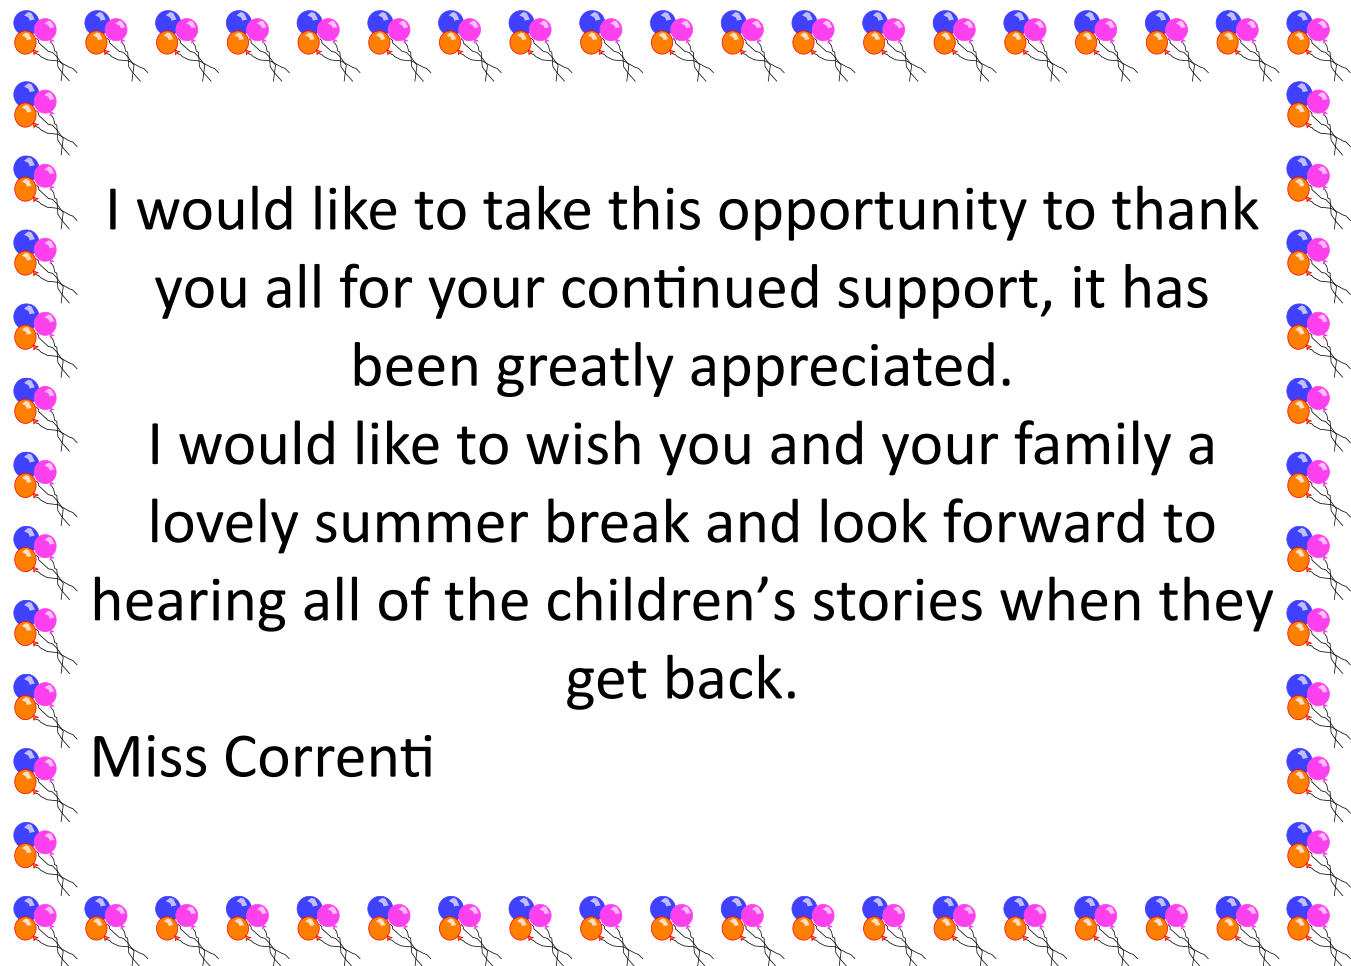

Nursery Graduation

Friday 20th July

Last day of term

Tuesday 4th September

**1st day of the Autumn
term**

I would like to take this opportunity to thank
you all for your continued support, it has
been greatly appreciated.

I would like to wish you and your family a
lovely summer break and look forward to
hearing all of the children's stories when they
get back.

Miss Correnti
