

Notes & Guidance

What Data Have We Used?

2025 Year 1 Phonics Screening Check and Year 2 Phonics Re-Check data (for pupils who did not achieve the standard in the 2024 Year 1 Phonics Screening Check) is from the **Local Authorities 2025 phonics data collection**.

2025 Phonics Check by the end of Year 2 combines data from the Local Authorities 2024 Year 1 Phonics Screening Check data collection and the 2025 Year 2 Phonics Re-Check. If pupils sat the 2024 Year 1 Phonics Screening Check in another Local Authority in England their data has been taken from the DfE's Get Information about Pupils (GIAP) website.

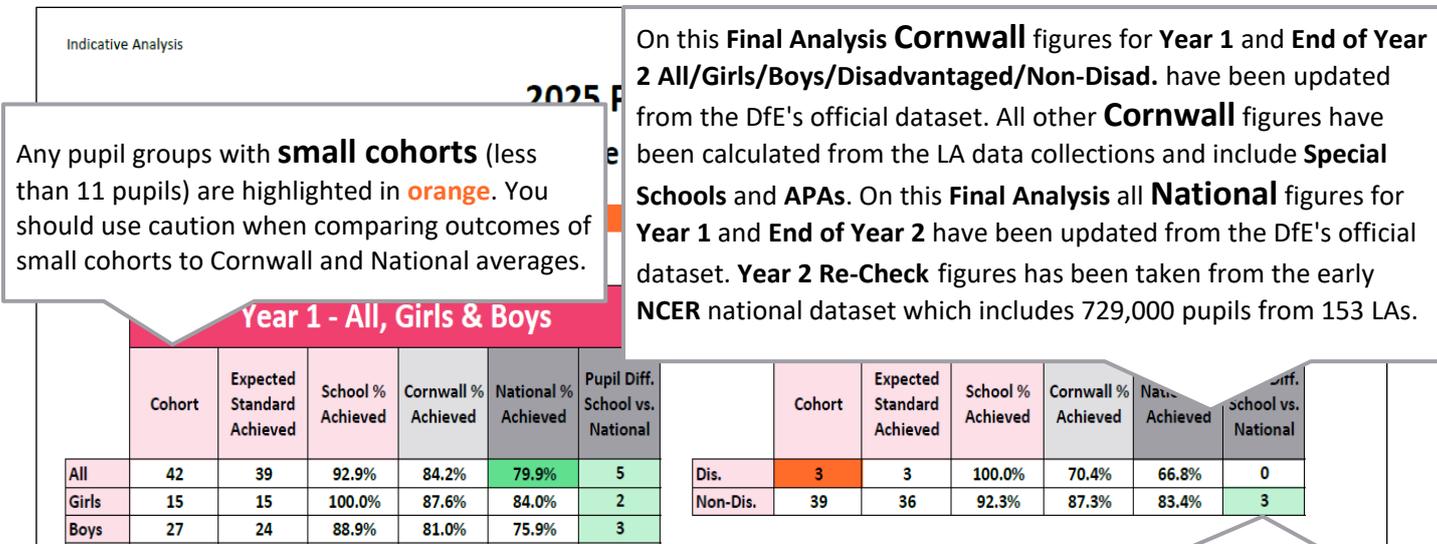

**Disadvantaged pupils** are those who have been eligible for free school meals in the last six years (from Summer 2019, up to the Spring 2025 school census), pupils with post-looked after arrangements (as at the Spring 2025 school census), and children in care (from 1 April 2024 to 31 March 2025).

Disadvantaged status is based on the DfE's Spring 2025 school census data as well as the DfE's pupil premium data, which is based on the DfE's Autumn 2024 school census and Local Authority children in care data.

We have calculated **Term of Birth** using the DfE's methodology:

- **Autumn** includes children born between September & December (4 months).
- **Spring** includes children born between January & March (3 months).
- **Summer** includes children born between April & August (5 months).
- **Children educated out of year:** older out of year children are included in the Autumn born group and younger out of year children included in the Summer born group.

Comparators, Gaps & Significance Testing

**Significance testing** (based on a 95% confidence interval) has been applied to all pupil groups. **Green** shading in the Cornwall or National columns indicates attainment is **significantly above** the **Cornwall** or **National** average, **orange** shading indicates it is **significantly below**.

In the last column of the tables, **green** or **orange** highlighting indicates where the % of pupils achieving the expected standard in the school is above or below the % of pupils in **England** by a difference equivalent to 1 pupil or more, based on the number of pupils in the school cohort.
